All rugs on our website are listed in total length size.

Measuring guide:

Back length: measured from withers to the tail dock.

Total length: measured from the center of the chest to the end of the buttocks.

* The back length size of your horse is measured from withers to tail dock. The back length of your rug can be different from the measurement, because some rug types will cover the withers of the horse completely.

** Available only in selected eczema rugs, fly sheets and big neck rugs.

Normally you can use the chart to the side to find the proper size for your horse. However, depending on the conformation of the horse, your horse might need a different size.

If the horse wears a 195 size rug, pick a size M neck. Some neck covers have a number as size. If your horse wears a 195 size rug, pick the 185-195 size neck.

With exercise sheets, the size also corresponds with the rug size. If your horse wears a 195 size rug, pick a size L exercise sheet.
